me: well, you can always put on more layers of condoms
me: but you can't take more off if it's hot
Caleb: Ron Paul's so weird, he must be from Mars.
Caleb: So, Phil Collins.
Caleb: English cat.
Caleb: Front man of Genesis.
Caleb: Wildly successful solo career.
Caleb: Joins Michael Jackson and Paul McCartney as the only musician to have sold 100 millions on their own and in a band.
Caleb: Also, an English cat.
Caleb: And he owns the world's largest collection of artifacts and documents from the Texas Revolution.
me: you guys should be boyfriends
Caleb: Ew!
Caleb: I don't want to kiss Phil Collins!
Caleb: What kind of release should I expect?
Caleb: Talk to me, faggot.
me: oh, right
me: 5 million and counting
me: correspondence between Stratfor execs and analysts and powerful contacts speaking in what they think is off the record status over a period of more than ten years
Caleb: Yes, yes.
me: searchable format by keyword
Caleb: These things I know.
me: okay
Caleb: "Expect release soon" is vague.
Caleb: Press release or document dump?
me: and thus accurate
me: document dump
Caleb: Very well.
me: trying to get the whole thing out today
Caleb: You're an engine of prosperity, son.
me: No.
me: I AM Cyrus
Caleb: I am become Death.
